PRODUCTIVITY

MS Suite

Samuel is a statistician, data scientist and machine learning practitioner with a solid academic background in statistical modelling, econometrics and quantitative research. He is skilled in R, Python, STATA, SPSS, SQL and Power BI, and works comfortably with data science libraries such as Pandas, NumPy, Matplotlib and Seaborn. He has built dashboards, cleaned large datasets and produced analytical reports in a professional setting. His research on parameter estimation methods was presented at an international conference, demonstrating his capacity for independent academic work. He has also held multiple leadership positions in student governance and academic societies, showing both initiative and responsibility. He is eager to bring his technical and analytical skills to bear on science and technology problems at a global level.

EXPERIENCE

Junior Data Analyst

May to June 2026

Quantum Analytics

- ▶ Built interactive dashboards to track and present business performance metrics to stakeholders.
- ▶ Cleaned, validated and restructured datasets to maintain accuracy and analytical reliability.
- ▶ Produced written reports that translated data findings into practical recommendations for decision makers.

RESEARCH

A Comparative Examination of Parameter Estimation Methods in Simultaneous Equation Models with Non-Constant Variance

Presented at FAPSCON 2026, 2nd Biennial International Conference, Faculty of Physical Sciences, University of Ilorin. June 2026.

Supervisor: Dr. Abdul-Hameed Bolakale, Department of Statistics, University of Ilorin.
